KWC Home

Our portfolio

KWC Home is the embodiment of high quality, legendary designs and sophisticated functionality for taps in bathrooms, kitchens and the catering industry. Whether in the private or (semi)-public sphere – every single one of our products reflects our almost 150 years of experience, expertise and outstanding craftsmanship.

Our constant drive to create more than just simple taps can be seen in all of our innovations and product solutions, which have been continually setting new standards for decades. With our taps, you can literally feel the iconic and distinguished designs, innovative and safe ease of use, simple care and outstanding quality. With our products, we want to ensure that precious resources are treated with care and that water tastes and smells like water. And we remain true to this position with water-conserving functions and the use of selected premium materials that are ideally suited for hygienic contact with water. Whichever of our unique product solutions you use, our aim is always to enhance your quality of life sustainably.

The KWC Group is an international premium manufacturer of valves and fittings and comprehensive sanitary solutions. The former brands of the corporate group – KWC, Franke Water Systems, DEKO and DVS – have been trading under the name KWC Group AG since 2022. In six locations in Europe and Asia, high-quality products are manufactured for private homes, (semi-)public settings and healthcare. For over 150 years, the KWC Group has combined tradition and innovation with strong expertise in technology and materials coupled with high design standards. Sustainability, hygiene, safety and stunning appeal are among its defining values. The KWC Group is headquartered in Unterkulm, Switzerland.
